IDENTIFIERS Scholastic Aptitude Test; *South Carolina

ABSTRACT

Trends in quantitative facts relevant to public education in South Carolina are provided for the 1988-89 school year along with information beginning with the reference year of 1969-70. Twenty-six tables contain statewide information on enrollment, educational finances, programs, and test scores. Thirty-three other tables provide district summaries of equivalent information. The number of children enrolled in grades 1 through 12 in South Carolina public and private schools decreased from 689,418 in 1969-70 to 625,763 in 1988-89. Although the state population and per capita income have increased over 500% from 1969-70 to 1988-89, the number of children has decreased due to declining birth rates, and the portion of the state budget allocated to public education has declined. South Carolina spent less per student than did other states in the Southeast, and spent almost \$1,000 per student less than the national average. Statewide dropout rates declined, and readiness for first grade, measured by a cognitive skills test, increased. The percentage of students scoring above the 50th national percentile on the statewide testing program increased across all six skill areas and five grade levels, and the percentage of students meeting the statewide standards for reading and mathematics increased from 1980-81 to 1988-89. Scholastic Aptitude Test scores for South Carolina high school seniors increased 16 points on the verbal and 28 points on the mathematics sections from 1969-70 to 1988-89, in spite of a national drop in verbal and mathematics scores of 33 points and 12 points, respectively. FOREWORD

This publication is designed to provide users with trends in quantitative facts relevant to public education in South Carolina. Information for the 1988-89 school year is presented along with information beginning with the reference or base year of 1969-70. The reference year may vary due to the availability of data. Since this publication provides a broad diversity of information, users should refer to the footnotes and listed source documents when making comparisons.

One of the primary audiences for this publication is the South Carolina General Assembly, which is constitutionally responsible for the establishment and maintenance of our system of public education. This publication is distributed to the General Assembly and research staff, the Governor's office, the chief administrators of local school districts, professional education organizations, the Library of Congress, postsecondary libraries, and the State Library. It is also made available to the general public upon request.

Should additional information or explanations be needed, I urge you to contact the Management Information Section within the Office of Research.

Charlie G. Williams
State Superintendent of Education

HIGHLIGHTS

- > The population of South Carolina increased 34% since 1970 compared to a nationwide population increase of 20%, according to historical population counts and projected population figures.
- > Per Capita personal income in South Carolina increased 330% since 1970 compared to a 339% increase for the Southeast and 307% increase for the Nation since 1970. However, South Carolina's 1988 per capita income of \$12,926 was about 89% of that for the Southeast and about 78% of that for the Nation.
- > The portion of the South Carolina budget allocated to public K-12 education fell from 36.92% in Fiscal Year 1980 to 32.90% in Fiscal Year 1988.
- > The number of children enrolled in grades 1-12 in South Carolina public and private schools decreased from 689,418 in 1969-70 to 625,763 in 1988-89. This decrease was due primarily to lower birth rates.
- > Considering students enrolled in all schools across the State, the portion enrolled in public schools (grades 1-12) decreased from 96.7% in 1969-70 to 94.1% in 1988-89. Over the same time period and for the same grades, the portion of students in private schools increased from 3.3% to 5.9%. For the past three years (1987 to 1989), the portion of students in public schools including grades K-12 increased about .3% (93.1% to 93.4%). Whereas, the portion of K-12 students reported as attending private schools decreased about .3% (6.9% to 6.6%).
- > Over the trend period, the portion of revenue for public education from federal sources decreased for South Carolina, the Southeast, and the Nation. For South Carolina, the portion of actual revenue from state sources increased from 49.8% in 1970 to 50.6% in 1989 with the portion from local sources increasing over the same time period from 35.8% to 41.1%. Similar increases in the portion of funds from state and local sources were seen for the Southeast as well. But according to revenue estimates produced by the National Education Association, the Nation experienced a shift away from local sources (51.8% in 1970 to 43.5% in 1989) to state sources (40.9% in 1970 to 50.2% in 1989) for the support of public education.
- > Even though South Carolina's actual public school per pupil expenditure increased over 500% from 1969-70 to 1988-89, the State still spent, according to the National Education Association, about \$300 per pupil less than the Southeast and about \$1,000 per pupil less than the Nation.
- > In 1969-70, mills levied by South Carolina school districts for current operations ranged from 23 to 89 mills; and in 1988-89, mills levied ranged from 59.5 to 214 mills.
- > For the last three school years (1986-87 - 1988-89), the South Carolina classroom teacher average salary exceeded the calculated salary goals for the Southeast, as mandated and presented in the Budget Provisos. Even though the State's classroom teacher average salary improved over 270% (\$6,892 in 1969-70 to \$25,623 in 1988-89), it still was below that paid in the neighboring states of Georgia (\$28,038) and North Carolina (\$25,650).
- > The number of staff employed in South Carolina school districts increased 25% from 1974-75 to 1988-89. Over the same time period, the percent of total staff who were white increased from 75.4% to 79.0%; and the percent of total staff who were female increased from 70.1% to 79.3%.
- > As the total number of students served in schools across the State declined since 1969-70, the number of public and private students served in Chapter 1 (low income only) Programs plunged even further. In 1969-70, a little over 305,700 students qualified for services within these programs. By 1988-89, only a little over 60,000 were reported. Over this same time period, program allocations increased 81% or from \$33.1 million to \$60 million.

- > The number of students enrolled in vocational education courses in South Carolina public schools increased 17% since 1969-70.
- > The number of public school students viewing instructional television at school increased 210% since 1969-70.
- > In 1969-70, a little over 39,000 persons were served through adult education. The number provided education through this program in 1988-89 reached 77,815 or about 99% more than that served in 1970.
- > The average number of students served by the free or reduced-price lunch program decreased 19% from October 1974 to October 1988. The average daily participation in the total school lunch program decreased 7% over this same period of time.
- > The number of public school students transported daily at public expense increased about 5% from 1969-70 to 1988-89. Total reported miles traveled by school buses over the course of the school year increased 48% from 1969-70 to 1988-89.
- > The percentage of public high school graduates entering all post-secondary schools increased from 49.6% in 1969-70 to 54.5% in 1987-88.
- > The student dropout rate for grades 1 through 12 decreased from 1.7% in 1971-72 to 1.5% in 1988-89. Over these past six years, the reported number of students dropping out of school decended from 10,828 to 8,590 or a little over 2,000 fewer students left school in 1989 than in 1972.
- > The number of first grade students ready to begin first grade work, as tested by the Cognitive Skills Assessment Battery, increased from 60.2% in the Fall of 1979 to 74.8% in the Fall of 1988. In the last three years, first grade student readiness for the State stayed above 74%.
- > The percentage of South Carolina public school students scoring above the 50th national percentile on the Statewide Testing Program, with a few exceptions, showed steady increase across 6 skill areas and 5 grade levels.
- > For the Basic Skills Assessment Program, the statewide percentage of public school students meeting the standard in reading and mathematics increased for all reported grades from 1980-81 to 1988-89.
- > Scholastic Aptitude Test (SAT) average scores for South Carolina high school seniors increased 16 points on the verbal section and 28 points on the math section from 1969-70 to 1988-89. Nationally, average scores for the verbal section dropped 33 points; and average scores for the math section dropped 12 points since 1969-70.

Percent Classroom Teachers ⁴ of Total Staff	83.8	84.3	84.2	84.4

¹The "Revised Average Salary" paid classroom teachers for school year 1969-70 was an actual (end-of-year) average computed by the South Carolina Department of Education and submitted to the National Education Association (NEA) for publication. Estimated average salaries were submitted to NEA for school years 1986-87 through 1988-89. **Actual end-of-year average salary for South Carolina classroom teachers may be found on page 19.**

²Information for 1969-70 was not compatible with other years shown. The above staff counts were reported in full-time equivalencies (percent of time spent in reported positions) and included only professional staff.

³See district tables for explanation of Instructional and Noninstructional staff.

⁴Includes child development, kindergarten, special education, and regular classroom teachers. Figures for 1974-75 exclude child development teachers.

Explanatory Note:

Refer to entries 1, 3, 7, and 19 in Bibliography (pages 87-88) for source documents.

Lunch	260,831	227,054	217,412	210,214
Breakfast	27,071	63,916	62,572	61,035
Total Average Daily Participation in All School Lunch/Breakfast Programs:				
Lunch	458,879	435,432	431,137	426,517
Breakfast	29,660	72,985	72,076	70,740

¹ Includes gifted and talented, special education, and other programs.

² Since students may be participating in more than one program area and require transportation, the state total for students is a duplicated count.

³ Student eligibility is determined by family size and income as declared by parents. These students are also eligible for free or reduced-price breakfast if the schools participate in the School Breakfast Program. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the Breakfast Program. Because students who may be eligible for free or reduced-price meals may choose not to apply or participate, the number of eligible students may not represent total eligible students.

¹ 1969-70 figures exclude adult, nonpublic school, and public library expenditures. For 1986-87 through 1988-89 adult programs, community services, and pupil activity funds have been excluded. Funds expended by county boards and area vocational centers have been prorated to the appropriate districts based on pupils served for school years 1986-87 through 1988-89.

² Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

³ Public school employee fringe benefits are included as expenses at the state level for 1986-87.

Explanatory Notes:

Figures for 1969-70 reflect per pupil expenditures based on average daily attendance for grades 1-12. Expenditures were adjusted to exclude expenditures for voluntary kindergarten. All other years were based on average daily membership and include grades K-12. Kindergarten students were included in the per pupil expenditure calculations at .5 FTE.

Current operating expenditures exclude capital outlay and debt retirement accounts.

Refer to entries 6 and 9 in Bibliography (pages 87-88) for source documents.

¹ Includes regular classroom teachers, special education teachers, kindergarten and child development teachers, librarians, guidance counselors, and other professional instructional and instructional-oriented staff.

² Full-Time Equivalency (FTE) is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position. All FTE represented above are expressed in tenths.

³ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

Comparable information for 1969-70 is not available.

¹ Includes all professional instructional and noninstructional staff.

² Full-Time Equivalency (FTE) is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with '1' representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position. All FTE represented above are expressed in tenths.

³ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

Comparable information for 1969-70 is not available.

Refer to entries 7 and 19 in Bibliography (pages 87-88) for source documents.

¹ Descriptors designated with code "00" under the column "District" were used to identify the existence of area vocational center(s) serving more than one district.

² Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

³ Contained in Special Institutions category.

⁴ State Hospital, Williamsburg Manpower Center, Wil Lou Gray Opportunity School, and South Carolina School for the Deaf and the Blind.

Explanatory Notes:

Information for 1969-70 is not available by district.

Duplication of enrollment figures may occur among program areas because students are enrolled in multi-program areas.

Refer to entry 23 in Bibliography (pages 87-88) for source document.

¹ Descriptors designated with code "00" under the column "District" were used to identify the existence of area vocational center(s) serving more than one district.

² Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

³ Contained in Special Institutions category.

⁴ State Hospital, Williamsburg Manpower Center, Wil Lou Gray Opportunity School, and South Carolina School for the Deaf and the Blind.

Explanatory Notes:

Information for 1969-70 is not available by district.

Duplication of enrollment figures may occur among program areas because students are enrolled in multi-program areas.

Refer to entry 23 in Bibliography (pages 87-88) for source document.

¹ The minimum statewide standard is set at a score of 700 on a scale that may range from 200 to 1100.

² Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

BSAP tests are criterion-referenced and are created to determine whether a student's performance meets the state standard, not for the comparison of districts.

Some figures may deviate from last year's edition due to changes made within the cited source document.

Comparable information for 1969-70 is not available.

Refer to entry 17 in Bibliography (pages 87-88) for source document.

¹The minimum statewide standard is set at a score of 700 on a scale that may range from 200 to 1100.

²Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

BSAP tests are criterion-referenced and are created to determine whether a student's performance meets the state standard, not for the comparison of districts.

Some figures may deviate from last year's edition due to changes made within the cited source document.

Comparable information for 1969-70 is not available.

Refer to entry 17 in Bibliography (pages 87-88) for source document.

¹ The minimum statewide standard is set at a score of 700 on a scale that may range from 200 to 1100.

² Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

BSAP tests are criterion-referenced and are created to determine whether a student's performance meets the state standard, not for the comparison of districts.

Some figures may deviate from last year's edition due to changes made within the cited source document.

Comparable information for 1969-70 is not available.

Refer to entry 17 in Bibliography (pages 87-88) for source document.

¹ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11. There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Refer to entry 20 in Bibliography (pages 87-88) for source document.

**RESULTS OF THE SOUTH CAROLINA
STATEWIDE TESTING PROGRAM
Grade 5**

¹ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester District 4.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11. There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Refer to entry 20 in Bibliography (pages 87-88) for source document.

**RESULTS OF THE SOUTH CAROLINA
STATEWIDE TESTING PROGRAM
Grade 7**

¹ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11. There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Refer to entry 20 in Bibliography (pages 87-88) for source document.

**RESULTS OF THE SOUTH CAROLINA
STATEWIDE TESTING PROGRAM
Grade 9**

¹ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 8, and 11. There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Refer to entry 20 in Bibliography (pages 87-88) for source document.

**RESULTS OF THE SOUTH CAROLINA
STATEWIDE TESTING PROGRAM
Grade 11**

¹ Dorchester District 1 and Dorchester District 3 combined during the 1986-87 school year to form Dorchester 4.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11. There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Refer to entry 20 in Bibliography (pages 87-88) for source document.

¹ Student eligibility for free or reduced-price meals is determined by family size and income as declared by parents. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the School Breakfast Program. If the schools participate in the School Breakfast Program, students are also eligible for free or reduced-price breakfast. Because students who may be eligible for free or reduced-price meals may choose not to apply or participate, the number and rate of eligible students may not represent total eligible students.

² Average Daily Membership, 15-Day Period. Membership figures include grades K-12 although school meals may not be made available to kindergarten students in all districts.

³ Percent was computed excluding the number of eligible students and membership in South Carolina Youth Services.

Explanatory Note:

Refer to entry 22 in Bibliography (pages 87-88) for source document.

¹ Student eligibility for free or reduced-price meals is determined by family size and income as declared by parents. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the School Breakfast Program. If the schools participate in the School Breakfast Program, students are also eligible for free or reduced-price breakfast. Because students who may be eligible for free or reduced-price meals may choose not to apply or participate, the number and rate of eligible students may not represent total eligible students.

² Average Daily Membership, 15-Day Period. Membership figures include grades K-12 although school meals may not be made available to kindergarten students in all districts.

³ Dorchester District 1 and Dorchester District 2 combined during the 1986-87 school year to form Dorchester 4.

⁴ Percent was computed excluding the number of eligible students and membership in South Carolina Youth Services.

Explanatory Note:

Refer to entry 22 in Bibliography (pages 87-88) for source document.
